Call for interest: Joining the IATI Governing Board

Role of the Governing Board

The Governing Board represents each constituency of IATI members, making recommendations on the initiative’s overall strategic direction, overseeing its institutional performance, and ensuring that IATI operates effectively according to its mission, vision, and values. The Board is responsible and accountable for oversight and approval of the annual work plan and budget, but has no operational role in the day to day management of this work, which is carried out by the IATI Secretariat. Board members are expected to serve as global ambassadors for IATI, both within their constituencies and at the international level. Other key responsibilities include:

- Advising the IATI Members’ Assembly on the overall financial situation of IATI and recommending action when required;
- Providing guidance on the development of Members’ Assembly agendas and papers by the Secretariat;
- Responsibility and accountability for oversight and approval of the annual work plan and budget. The Board is accountable to the Members’ Assembly for progress on the strategic plan; and
- Convening annually as a project board to participate in a review of the IATI Secretariat project. This oversight exercise is led by UNDP as hosts of the initiative, in accordance with UNDP’s Programme and Operations Policies and Procedures.

The Board is assisted in its work by advisory Working Groups of members that are established from time to time to provide advice on specific areas of IATI’s work in accordance with the Standard Operating Procedures.

Composition and Term

The Board is comprised of two members from each of three constituencies: providers of development cooperation, partner countries, and civil society organisations / private sector organisations / other members). An additional (seventh) seat is reserved for representation from the IATI technical community.
Elected members commit to serving a full two-year term, and may consider continuing to serve for a second term, to ensure continuity of representation on the Board.

IATI seeks to reflect diversity on its Board in terms of gender balance, geographical distribution, and under-represented groups, while balancing the technical expertise needed to steer the initiative. Board members serve for two years and may be reelected with no cap on terms of service.

What’s in it for you and your organisation?

- Ability to contribute to, and be part of, a high-profile international initiative, which aims to increase the impact of resources for development worldwide.
- Excellent networking opportunities and the possibility to meet and work with colleagues from across the development sector, both online and face-to-face.
- Unpaid position, however the role offers opportunities to travel internationally where relevant, to represent IATI, with reasonable expenses paid.
